TEACHER NEWSLETTER

Issue 9

A MESSAGE FROM GRACE

Hi educators! Happy New Year! I hope things are going well so far and that you have been able to settle into the semester. Just a reminder that I am available for any of your soil and water conservation education needs! Programs can be catered to your classroom needs, as well as to the SOLs that you are focusing on.

In this newsletter, you will find a form asking about professional development opportunities in the summer. Please fill this out ASAP so I am able to start planning events that you might be interested in. Please don't hesitate to reach out if you have any questions!

HOW I CAN HELP

Classroom lessons: enviroscape model, SOL capsules, Stream Crime Investigation Lab, Project WET, WILD, and PLT Lessons
Outdoor lessons: water quality testing, interactive soil tent, erosion demonstrations

Please fill out [this form](#) if interested in a PD workshop for recertification credits!
